Request for equipment for World Competitors

We are looking for Competitive Plows and Tractors for the 2019 World Plowing Championships in Baudette Minnesota August 30 and 31st, 2019. This is a unique opportunity to be part of the World Plowing Championships as it returns to North America and isn't scheduled to return for a couple of decades.

Plans are being worked on to connect World Competitors with needed equipment. Questions regarding logistics etc. will be developed over the next few months. There will be a North American Challenge Match for those that have provided their equipment that will happen after the competition.

If you have a competition plow and would consider offering it to be part of the World Plowing Championship, please contact: John Gaard, President of the USAPO at: 605-201-1857 or jdgaard@gmail.com
